

# EUROCAS

## eHealth Conformity Assessment Scheme for Europe

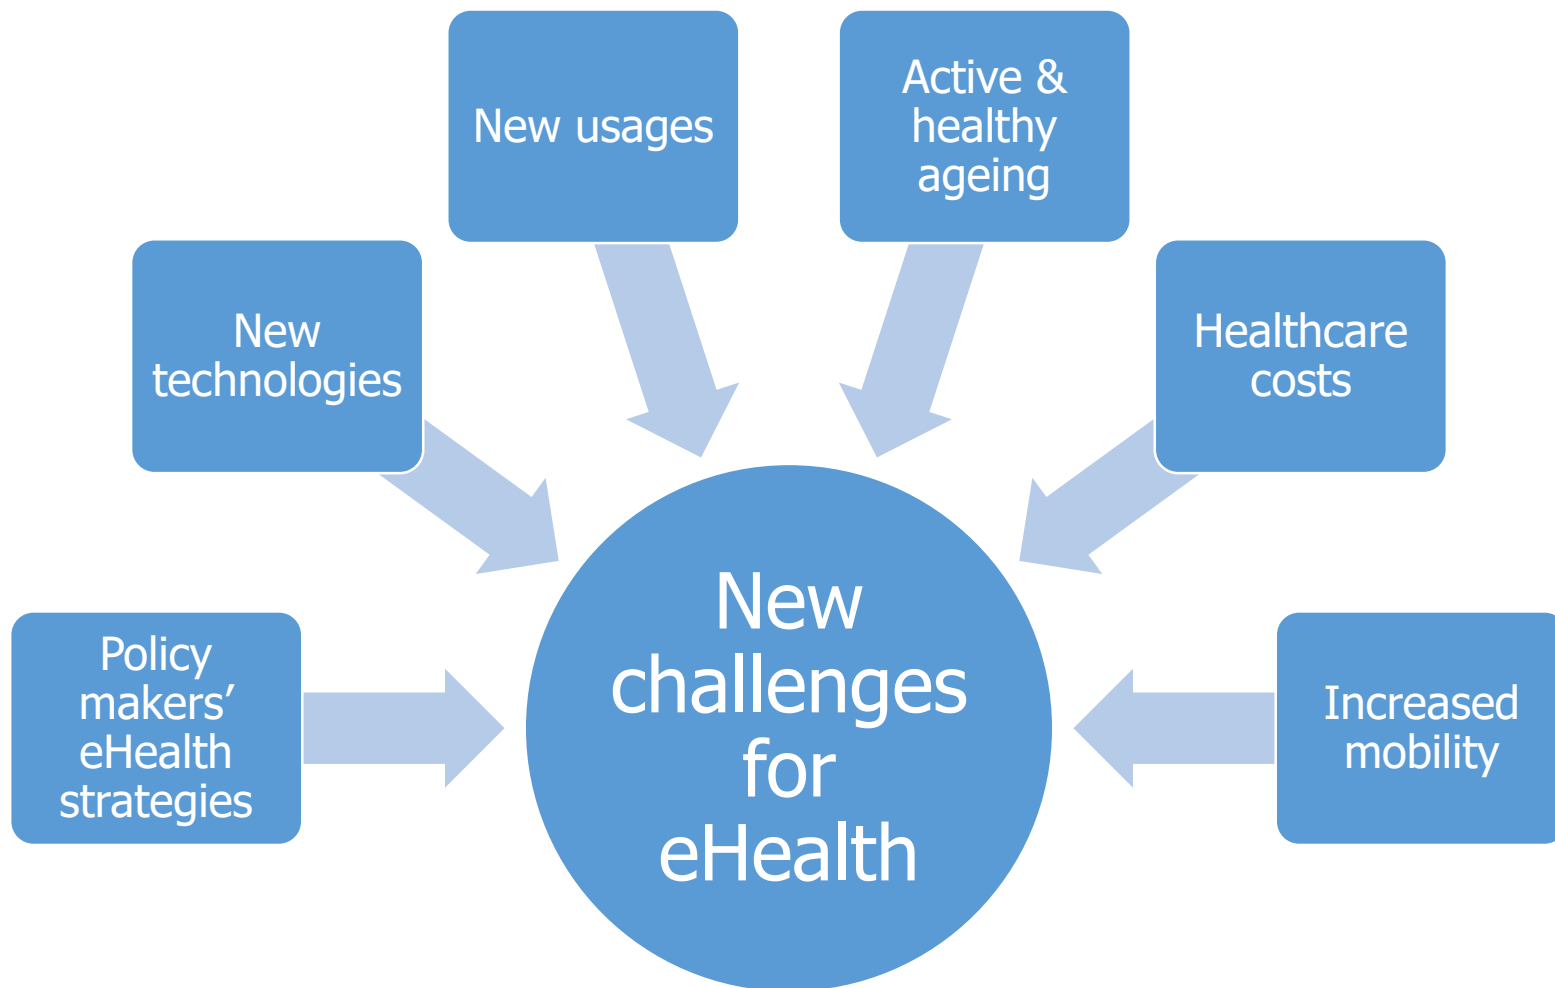

Round Table: what's in it for me?

#CASforEU

*The EURO-CAS project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No.727028.*

# Context

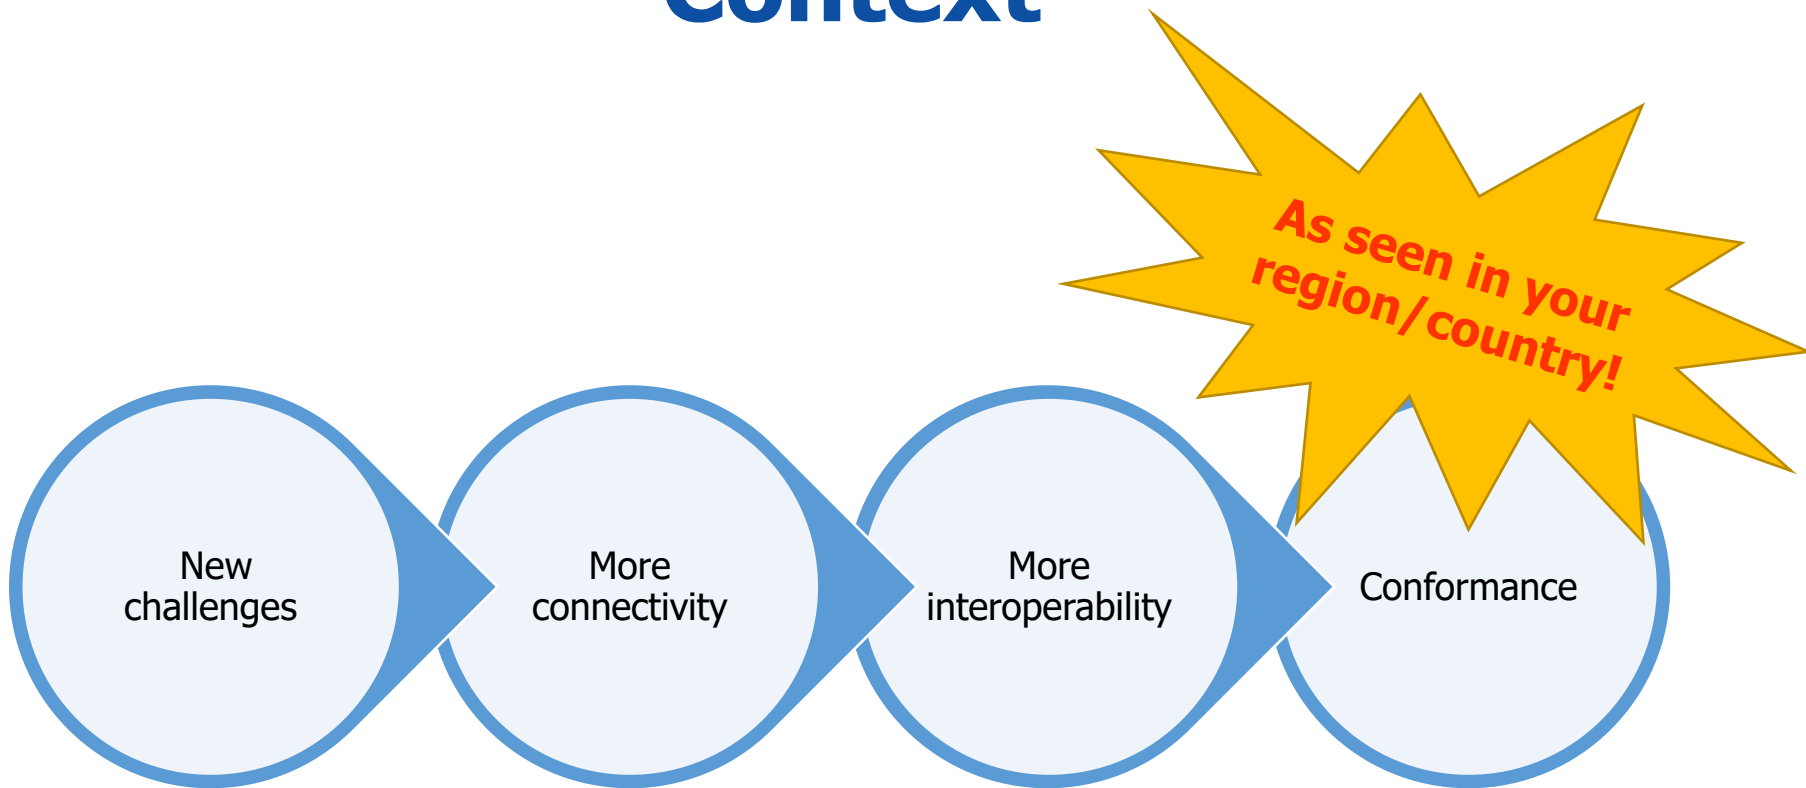

**EURO-CAS**

*The EURO-CAS project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No.727028.*

# Context

# But...

- Shall each region/country work alone, or share best practices?
- Are there common profiles and standards?
- Does relevant conformity assessment schemes already exist?
- Are there recommendations for testing?
- Shall a vendor repeat always the same tests?

# EURO-CAS key goal

*EURO-CAS to develop the sustainable Conformity Assessment Scheme for Europe (CASforEU), to promote the adoption and take-up of interoperability testing of eHealth solutions against identified eHealth standards and profiles defined in the Refined eHealth European Interoperability Framework*

**EURO-CAS**

*The EURO-CAS project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No.727028.*

# EURO-CAS

## EURO-CAS

Define a sustainable scheme with processes and content (CASforEU)

Meet the requirements at the European and national/regional levels

Provides operational guidance for eHealth initiatives to implement and adapt CASforEU to local needs

Keep consistency with existing international initiatives such as IHE CAS and PCHAlliance CAS, and SDOs

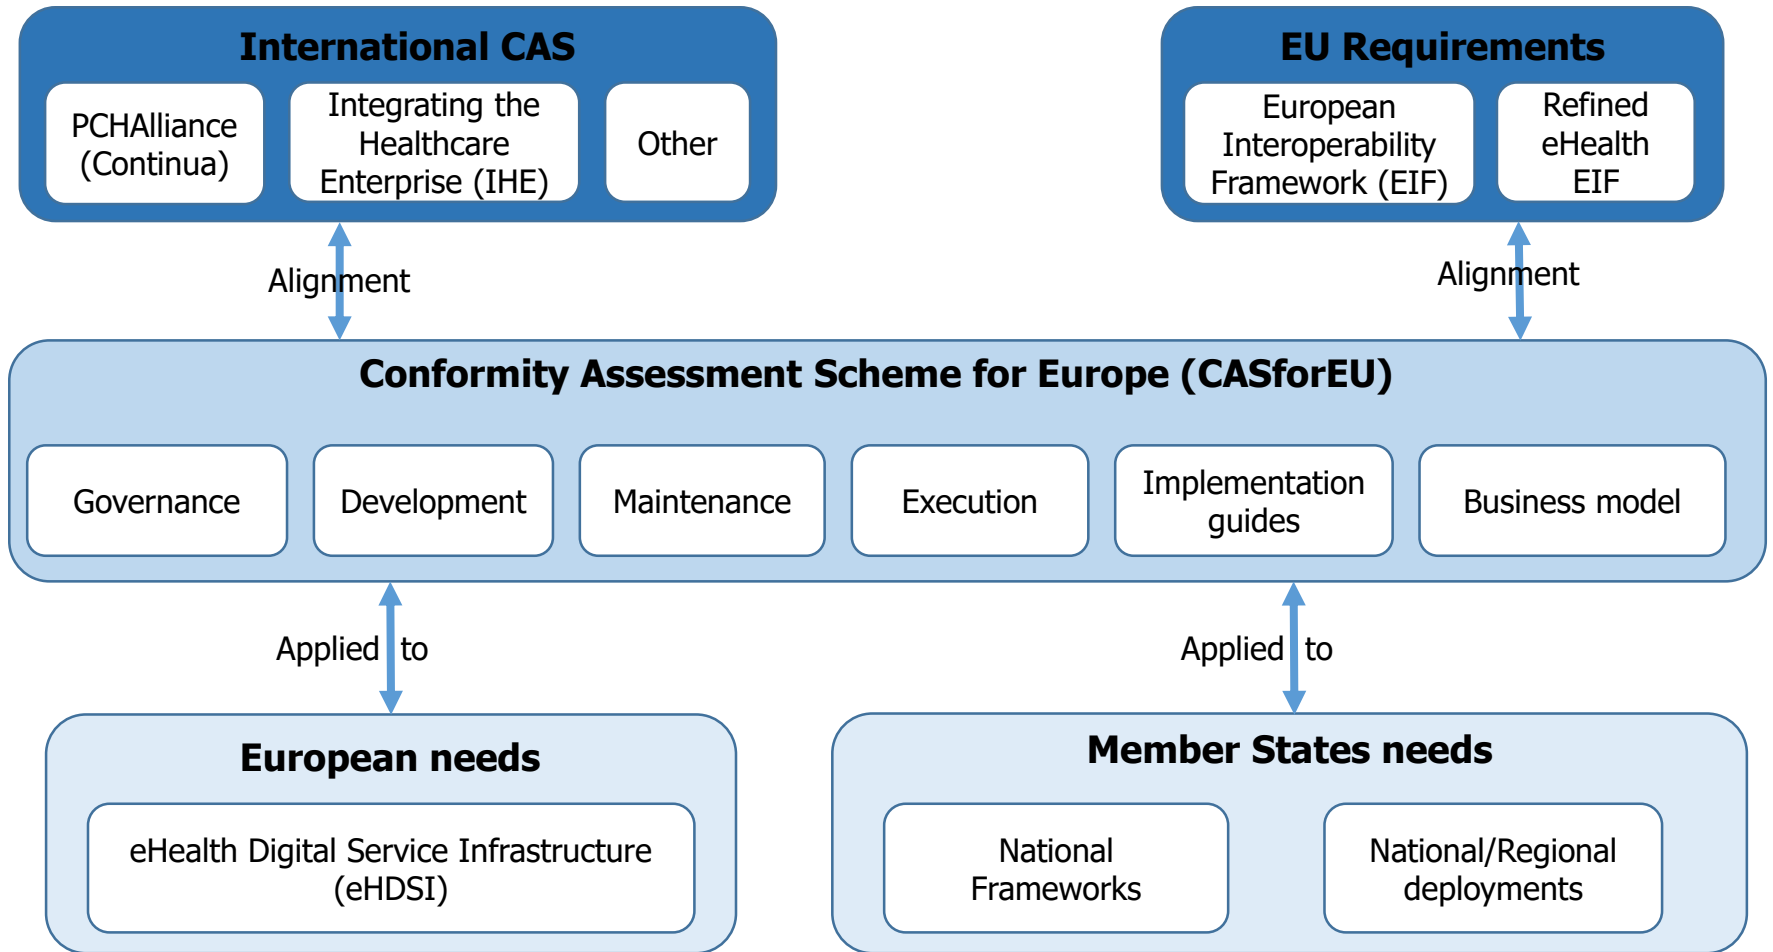

Use accredited test labs and ISO/IEC 17067, ISO/IEC 17025 and other applicable ISO/IEC standards

Create an open organization for members to maintain and evolve CASforEU

EURO-CAS

# CASforEU in more details

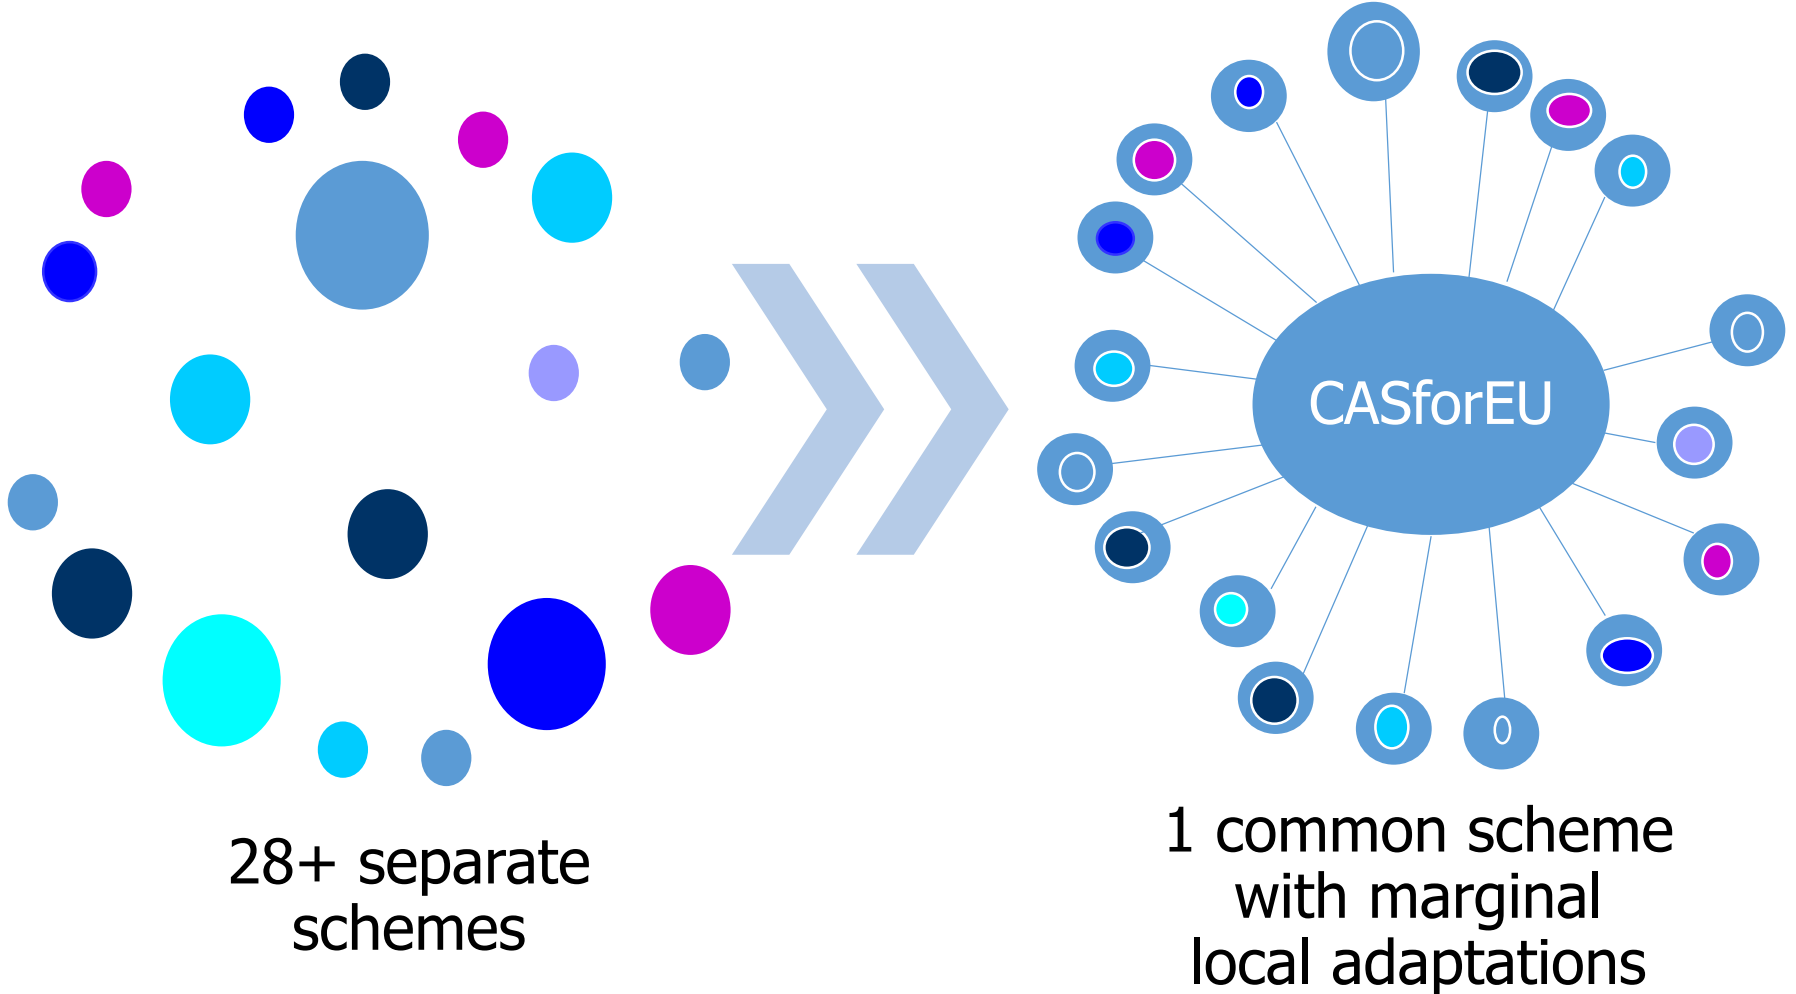

**EURO-CAS**

The EURO-CAS project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No.727028.

# Goal

# Benefits

## Vendors and IT companies

- Reduced effort in interoperability testing
- Investments redirected to innovative product features and usability
- Broadened market opportunities in a European Digital Single Market (and beyond)
- New opportunities for test laboratories

## Professionals, patients

- Quality, interoperability, usability of solutions
- Better time-to-market of innovative solutions
- Enhanced patient's engagement and mobility through such innovative solutions
- More resources, directly or indirectly, redirected towards the patient

## eHealth Initiatives, governments, policy makers, procurers, payers

- An independent benchmark
- Reduced effort and expenses in specification and testing
- Conformity with regulation

**EURO-CAS**

# Please welcome

- Alexander Berler
  - Gnomon Informatics
- Pascal Garel
  - HOPE (European Hospital and Healthcare Federation)
- Andreas Klingler
  - Siemens Healthineers
- Manuel Metz
  - ASIP Santé (Agence Française de la Santé Numérique)

# Thank you!
